[LinkedIn Profile](#) | [GitHub Profile](#) | [Work Portfolio](#)

I am a motivated individual with over 5 years of management experience in a variety of fields and environments. I excel at developing and implementing technical processes and managing team resources and time in order to meet targets on-time and under budget.

Currently enrolled in a full-stack web development boot camp and have recently completed the front-end training on HTML, CSS, Javascript, and JQuery. We have moved into back-end development and have learned Node thus far.

Technical Skills

Frontend: HTML, CSS, JQuery, Javascript, Bootstrap
Backend: Node, SQL, R

Projects

Coding game | [Repo](#) | [Deployed](#)

- This is a simple coding game- the user is given a time limit to answer several multiple choice questions. When all questions are answered the user is given the option of entering their initials to locally save their high score, which is the remaining time.
- Tools/Languages: HTML, CSS, JavaScript

DayPlanner | [Repo](#) | [Deployed](#)

- Dynamic work day planner. Time blocks in the past are red, time blocks in the future are green, and the time block for the current hour is gray. Entries can be typed in and saved locally.
- Tools/Languages: HTML, CSS, Javascript, Moments.JS
